To determine the accuracy of three-dimensional (3D) computed tomography-guided liver biopsy. One hundred consecutive patients were prospectively evaluated after CT-guided percutaneous liver biopsy. Using a recently developed 3D-phased contrast-enhanced CT scanner (Somatom Plus, Siemens Medical Systems, Erlangen, Germany), a spiral volume data set was generated. Two radiologists independently evaluated the data set for artifactual lesions and safety aspects. Out of a total of 2,946 biopsies performed, 636 biopsies were performed with a 14-gauge Tru-cut biopsy needle. The diagnostic accuracy of 3D volumetry was calculated and compared with biopsy results. In 65 of the 636 biopsies, the biopsies were non-diagnostic or insufficient for diagnosis. A total of 589 lesions were detected in the liver and were evaluated. In 166 (28.9%) cases, one or more additional lesions were detected. 3D volumetric analysis of biopsies showed that the diagnostic accuracy of the applied technique is 83.9%. In seven patients (1.2%), an additional lesion

But all of a sudden the elderly man strikes. He’s interested in the treasure so he gets a little violent. The newcomer then introduces himself to the Straw Hats as Big Mom. They’re a bit wary but don’t attack him. His motive for being around here is to retrieve the money he’s promised. Big Mom then starts to show off his “Golden Fleet”, a fleet of Flying Pirates, that were in a battle with the Straw Hats during the run up to the New World. He starts to explain the history of the fleet but all the time he’s talking the crew get ready to attack. Straw Hat Luffy is still fighting Fujin and Zoro can’t stand the fact that he’s not doing anything. They both start to chase him, but before they can attack Big Mom, Luffy is warned to stay away.
